Dear Members of Parliament,

I hope that this open letter finds you well and in good spirits. It is my mission to write to you about what is going on with this plannedemic event called COVID19 pandemic, and the reasons why this has led to the worldwide lock-down. Most authorities are compromised and being told what to say, without doing their homework about the real science and reasons behind this situation. On the news government bulletin of COVID 19 (issue 68) on the 18th May, it was reported that this was objective and balanced. It was neither.

Why do most countries world-wide rest on the advice behind the WHO (World Health Organisation) and the CDC (Centre for Disease Control and Prevention) of the USA, without questioning the science behind it? Knowing about the glaring corruption in these institutions, at the highest levels, is paramount to understanding the truth. This is a conspiracy fact, not fiction, as all member states of the WHO are wilfully not blowing the whistle, when all the evidence is out there. The heads of these authorities are elected in an undemocratic way, as the general public is not empowered to vote for them, and they use the nation states' officials to vote on their behalf, without question. This has to stop.

Then we would delve into how the Bill & Melinda Gates Foundation fits into this. Are these institutions good, bad or just taken for granted? Do not worry. Their lies and incompetence are so great that they try to hide all its flesh by a bikini, in full view to the world. No need to

use microscopes or imax glasses for this exposure. It is all there on the free web. The mainstream media is too bribed and compromised to tell us the truth. The eerily similar orchestrated scripted lines of the mass media pandemic narrative headlines is proof of this.

Malta, as many other countries around the world, signed an agreement with the WHO without much discussion. We did not sign a death-warrant with a formal public debate either. The real lock-down, to an almost fanatical degree, is the heavy censorship of the media, when exposing correct information: hence the need for this letter. The mass media, authorities and most people 'in power' seem to be working to hide the truth. I call it a Conspiracy Vivid 19, as it is literally, 'in your face'.

The False Science Behind The COVID 19 Test

Verified scientific knowledge is key to seeing through the rationality of this whole plandemic scare. It is all manufactured, designed, implemented and promoted by authorities for an agenda, and certainly not for the benefit of humankind. This trust in these authorities should be seriously questioned, as they are the ones to quarantine the truth, along with the paid media.

The IAEA (International Atomic Energy Agency)¹, FAO, WHO rely on a test technique called RT-PCR (real time reverse transcription–polymerase chain reaction) and this same technique has also been employed to diagnose other diseases such as Ebola, Zika, MERS-Cov, SARS-Cov1, and other major zoonotic and animal diseases. These illnesses have no scientific 'gold standard' studies about their existence and these have been 'diagnosed' by the same RT-PCR test.

The Nobel prize winner, Kary B. Mullis (shared the 1993 Nobel Prize in Chemistry) invented the RT-PCR test, but warned us not to use it to test for viruses or diagnostics: -

He wrote "SCIENTISTS ARE DOING AN AWFUL LOT OF DAMAGE TO THE WORLD IN THE NAME OF HELPING IT. I DON'T MIND ATTACKING MY OWN FRATERNITY BECAUSE I AM ASHAMED OF IT."

This means that he's willing to attack his very own invention, and the group of people working on this test. These tests do not indicate any viruses. Nobody at the WHO, CDC or other world health departments are retracting their decisions, and stating that they were all wrong.

Considering the testimony by Dr. Andrew Kaufman of the US, most of his knowledge on this test is based upon the peer reviewed papers and research on common sense science. The RT-PCR test, is a test for genetic sequencing and not for any virus².

¹ <https://www.iaea.org/newscenter/news/how-is-the-COVID-19-virus-detected-using-real-time-rt-pcr>

² https://londonreal.tv/unmasking-the-lies-around-COVID-19-facts-vs-fiction-of-the-coronavirus-pandemic/?utm_source=drip&utm_medium=email&utm_campaign=2020-04-

His opinion is that the COVID 19 plannedemic is a completely manufactured crisis. He showed that an earlier coronavirus called SARS-COV 1 during 2003 was done using the same test and methodology. This means that the SARS-COV 1 virus case is also unreliable.

No evidence of anyone dying from an unknown illness. He does continue to post on Youtube in spite of the censorship, as the truth needs to come out. More information from Dr. Kaufman in Appendix 1 (page 15).

Are Medicines Good & Tested Via Independent Trials?

Most people think that medicines are good, have had good clinical trials, being published and promoted to health-care professionals and doctors prescribing them, but they are mistaken. Sil Lane claims that around half of the clinical trials done on medicines we use today are not published³. Are the "COVID 19" vaccine clinical trials going to be published, before human vaccine injections? Our health authorities that truly wish to defend our health should engage honest local scientists that would publish the methodology, and results of such studies, and never depend on any industry related 'recommendations' without verifiable scientific papers.

Recommendations is a cheap word used by some health-authorities when quoting other foreign authorities, but most do not do their homework at a local level. Health related pharmacy trials are delegated mainly to private corporations. No 'golden standard' scientific procedures exist for most vaccines. Dr. Judy Mikovits PhD exposes contaminated vaccines⁴ and that the CDC was **supposed** to safeguard our health.

St. Paul who was shipwrecked here in Malta, warned us and the world against pharmacy in his Letter to the Galatians, but we have foolishly ignored his warning to our own detriment and injury:

Galatians 5:19 Now the works of the flesh are manifest, which are [these]; Adultery, fornication, uncleanness, lasciviousness,
5:20 Idolatry, PHARMACY (*pharmakeia* in the Greek original text), hatred, variance, emulations, wrath, strife, seditions, heresies,
5:21 Envyings, murders, drunkenness, revellings, and such like: of the which I tell you before, as I have also told [you] in time past, that they which do such things shall NOT inherit The Kingdom of God.

In Germany, patients can sue the directors personally and severely for large sums of money, for harmful medicine, whilst in the US the pharmaceutical companies are protected by US legislation, and via 'special separate courts' on these matters, that mainly cover for the pharmaceutical companies, rather than the injured parties. Professionals who believe in

⁴ <https://www.youtube.com/watch?v=iZSFOjsDV6o>

real science usually stick to it, and do not move the goalposts, if these studies exist. One should not move on whims of the day. The director of the NIAID, Dr. Fauci, said that the masks do not work⁵ and then later retracted that statement.

Asymptomatic persons are those that do not have any symptoms, because they are not sick. Another example of saying one thing and doing another, is from the Centre for Disease Control (CDC) that stated:- "Testing asymptomatic persons should be avoided as it increases the likelihood of obtaining falsely-positive results. Asymptomatic close contacts of confirmed cases should not be tested and testing of contacts should not be used for post-exposure prophylaxis decisions".

This means that the test is 'dependant on' the existence of the symptoms, so why is the test still being used on asymptomatic patients all over the world, including Malta? First our health department stated that we should not test these, and later retracted it. This is more like ping-pong science, than established science, or according 'to the whim' science? This is why the RT-PCR test is not good, established by its originator Kary Mullis, both for the asymptomatic and non-asymptomatic patients.

The test-kits have been found to already be contaminated with the virus, so have not only tested falsely-positive with healthy people who did not have the virus, but have actually given healthy people the virus.

The fact that the Maltese Health Authority has one of the highest rates of testing people per population in Europe, means that a good proportion of them should have been 'technically' not subject to the test, if they had no proper symptoms, and so similarly in other countries.

There are a few brave doctors without any political or financial motive behind them, who understand this show and expose this to the public. There is lots of information from medical doctors, such as Dr. Buttar, who has connected the dots with who is managing the pandemic and why⁶. The WHO, do not review what thousands of independent doctors already know. Why?

In the US, hospitals get paid US\$13,000 per patient death, if it is considered COVID-19 pneumonia, and paid via the Medicare insurance. If that COVID-19 pneumonia patient ends up on a ventilator, it goes up to \$39,000. This is the financial incentive for increasing the number of positive cases, and all for using a test that has no scientific basis. The media caves in and provides readers with false reports on this virus, mostly without question.

The reported Maltese deaths to the Conspiracy Vivid 19 cases died of natural-causes, which are known to the health authorities, but they tagged them wrongly and deceitfully as COVID 19 cases. In Italy, after some months into this early 2020 crisis, they admitted that 99 % of cases had at least one chronic disease (about 40% of cases) and a higher percentage having two or more chronic illnesses and an average age of 89 years old. The mass media and other agencies did not bother to edit and amend this data, as they should, but all tacitly 'breathe

⁵ <https://www.youtube.com/watch?v=Ji5nYvLziYo>

⁶ <https://www.youtube.com/watch?v=XdSrY9-viEA>

together' in unison. That is what conspiracy means – breathing together. When blogging personally online at an Italian newspaper, my comment got taken down immediately. That is how powerful the media censorship is.

The show is dictated by the WHO, providing us with an ad hoc unscientific a-la-carte menu, frequently communicated at times, then retracted, then reinstated with the previous decision. This ping-pong 'science' or continual retraction of 'recommended actions' is proof of a conspiracy fact that no-one seems to dare to contest.

When a known drug called hydroxychloroquine (HCQ) was considered a good cheap cure for some COVID-19 patients, a trial was conducted by the WHO. The WHO started, then stopped the trial, and then resumed again the trial on the hydroxychloroquine for the treatment of COVID-19 patients. This was only after The Lancet raised concerns about the erroneous data which formed the basis of trial suspension.

The reason why the WHO has retracted (although later forced to reinstate) the trial was to protect the Big Pharmaceutical Industry, and the mass media plays fiddle to their tune⁷.

An investigative report by The Guardian found out that The Lancet study was based on flawed data from an US healthcare analytics company called Surgisphere⁸.

The employees at Surgisphere, the US-based company, have reportedly "little or no data or scientific background". The company has now been liquidated and according to the British daily newspaper, a science-fiction author and fantasy-artist has been listed as science editor, and an adult model is listed as a marketing executive.

Should the WHO rely on data from a defunct company, with a dubious reputation, no scientific background and unreliable data? The mass media and the politicians and health officials are promoting the hype of a new vaccine to combat this coronavirus situation.

Dr. Wolfgang Wodarg, an experienced physician said that this "promising vaccine" for the vast majority of people for the COVID 19 virus is in fact "a forbidden genetic manipulation!"

This mRNA vaccination, according to a naturopath, Anette Lillinger claimed that neither she nor any other therapist will be able to help you causally, because the vaccination damage will be genetically irreversible.

In her opinion, these novel vaccines represent a crime against humanity that has never before been committed in such a broad form in history⁹.

The CDC (Centres for Disease Control and Prevention)

When nominations are made for new directors in public positions, it is standard in Europe to determine if there are involved applicants with conflicts of interest. The CDC receives funds from pharmaceutical enterprises and from manufacturers producing health related machinery. This is a serious threat to independence¹⁰. The CDC members own more than 50 patents connected to vaccinations¹¹.

How can this government entity be an independent body to safeguard the US public health, if it is funded by private companies, and makes money from vaccines? It still gets away with the obvious conflicts of interest. It should be clear that the CDC cannot be trusted when it comes to giving advice about vaccinations. It continually lies, withholds evidence and fixes data on allegedly 'scientific reports' to obtain the results that they want to achieve.

The CDC had several whistle-blowers regarding its operations. One whistle-blower claimed that the MMR vaccine caused autism, and another claimed that Thimerosal (Mercury a known poison) in vaccinations causes children to develop tics. The CDC is found to be responsible for the death of thousands of unborn children. It admitted that polio vaccinations cause polio, but promote them anyway! The CDC was caught changing the risk criteria for Ebola transmission. More details on these in appendix 2 (page 18).

Total collusion with the pharmaceutical industry is why this organization is so corrupt. It safeguards only the vaccine and other health related industries, NOT the public. Due to their continual dishonesty, many children have suffered lifelong disabilities as a result.

The World Health Organisation (WHO)

The WHO is under the United Nations' umbrella and field of influence and its supposed main aim is to assist in the world's health issues for its members. It has many world-wide projects dealing with outbreaks of disease, and conducts studies about the various health scenarios that humanity faces.

Upon considering the actions of the current and previous director general of the WHO, it is no wonder that it is faced with an ever-increasing public distrust of its operations. Will only consider some actions on these two director generals.

Under the WHO directorship of Margaret Chan Fung Fu-chun from 2006-2017, there were two seriously grievous issues during her tenure. One is the scandal of bioengineering and releasing lethal biological agents, and the other is the topic of EMF (electromagnetic field).

¹⁰ <https://www.minnpost.com/second-opinion/2015/05/revelations-cdcs-industry-funding-raise-questions-about-some-its-decisions/>

¹¹ <https://www.lawfirms.com/resources/environment/environment-health/cdc-members-own-more-50-patents-connected-vaccinations>

Jane Burgermeister, an Austrian Investigative journalist, reportedly filed charges with the FBI in Austria on June 10, 2009 against the World Health Organization (WHO), the United Nations (UN), and several of the highest ranking members of the U.S. Federal government, including President Obama and corporate officials, concerning bioterrorism and attempts to commit mass murder, just in time for the anticipated July release of Baxter's A/H1N1 flu vaccine.

During the Swine flu 2009 pandemic scare, Dr. Wolfgang Wodarg (The German President of the Health Committee of the Council of Europe) issued accusations against pharmaceutical lobbies and the governments. "They Organized the Panic" and inquired into the Role of Big Pharma and the WHO by the Council of Europe

His request for a commission of inquiry into the role of pharmaceutical companies, in the management of the swine flu outbreak, by the WHO and the nation states, was granted unanimously by the members of the Health Committee of the Council of Europe. When interviewed about this with the question:- "What made you suspicious about the influence that pharmaceutical companies had on the decisions being taken in respect of swine flu?"

Wolfgang Wodarg wrote, "We are facing a major failure of national institutions responsible for warning about risks and responding in case a pandemic occurs. In April when the first alarm came from Mexico I was very surprised at the figures furnished by the World Health Organization (WHO) to justify the declaration of a pandemic. I was immediately suspicious: the numbers were very low and the alarm level very high"¹².

Does this sound familiar today with the COVID 19 episode? The main difference with the swine flu scare and the COVID 19 one is the high trumped up media barrage of manipulated statistics. Most deaths are falsely attributed to the COVID 19, and easily so with the false test of the RT PCR. The media and the health authorities do not correct and edit the death statistics, but leave them tagged as COVID 19. If done correctly, this would greatly down-size the theatrical show of deaths due to the COVID 19 virus, even when the test is not good for any diagnostic health results.

"No one has died from the coronavirus" <http://www.thetruthseeker.co.uk/?p=209772>

A doctor in the USA has offered \$5000 to anyone who can prove that COVID19 exists, with no takers.

The WHO EMF project was established in 1996, but continued under the WHO's Chan's Presidency. The project was supposed to develop an internationally acceptable standard for limiting EMF exposure.

Conflicts of interest to this EMF project were due to funding via private enterprise and staffed by former industry personnel, rather than from independent scientists or

¹² <https://www.globalresearch.ca/swine-flu-they-organized-the-panic-inquiry-into-the-role-of-big-pharma-and-who-by-council-of-europe/16902>

researchers. The project engaging people from the very industry itself, should never have been allowed to exist in the first place, but it did.

Olga Sheean in her video¹³ asserts that the WHO is responsible for crimes against humanity and the level of deception and incompetence is overwhelming. Industry infiltration, intentional ignorance, denial of science and disregard for humanity are four main accusations of this author. The full report is entitled: “WHO Setting the Standard for a wireless world of harm” by Olga Sheean¹⁴.

In December 2016, a VOTE of NO CONFIDENCE in the WHO and its EMF Project was initiated in response to the growing concerns among the millions of global citizens being harmed by radiofrequency/microwave radiation. The petition has been signed by thousands of individuals worldwide, with more adding their vote every day, as they become aware of how the WHO’s denial of the proven dangers has stripped them of their health, rights, livelihood, productivity and protection from their own governments.

The World Health Organization is failing the Earth’s citizens in the most blatant, destructive manner. This is far worse than any virus or bacteria pandemic, as radiation from harmful waves, via 4G, 5G or other EMFs can cause serious harm and death to people, if not addressed properly. The WHO failed humanity.

With so many scientists calling for no confidence in the WHO, under Chan’s directorship, should we be content with the current WHO director? Let us see how his CV stacks up. The current WHO Director-General Tedros Adhanom Ghebreyesus was the health minister of Ethiopia from 2005 to 2012, and then Foreign Affairs minister from 2012 to 2016. As Minister of Health, Tedros was able to form a close relationship with the Bill and Melinda Gates Foundation.

Tedros became a member of the Tigray People's Liberation Front (TPLF), and a member of a Marxist-Leninist Ethiopian political party¹⁵, and was one of the top three members according to a journalist¹⁶, and the United States State Department has categorized TPLF as a terrorist organization. Ethiopia has borrowed billions from China, reportedly including more than \$13 billion during Tedros’ tenure as foreign minister between 2012 and 2016. This is direct connection to Chinese politics and influence.

In his CV to be appointed to the directorship of the WHO, he pointed out that he was instrumental in obtaining funding for many health projects in Africa and world-wide. Any guess how he did it? When still a health minister, he was working as a director for the Bill and Melina Gates Foundation.

He was heavily criticised for mishandling three cholera epidemics in Ethiopia in 2006, 2009 and 2011. This caused a big scandal in his country and there were many public protests.

Then as foreign minister, he was involved in dealing with the tobacco industry, the British American Tobacco (BAT)¹⁷, and allowed it to operate in his home country Ethiopia.

He was selected just by being US President Obama's friend, and with Bill Gates' purchasing power. With a CV like this, should the world be taking orders from someone so corrupt and inept? He is not even a medical doctor. If he could not help his own people (or cover up the cholera outbreaks), how could he be adept enough to help the whole world?

Look at how he addressed the coronavirus situation via a Youtube video released on his birthday¹⁸.

Within the first 4 mins of this discussion by the WHO on this Youtube video, Tedros says the virus is a threat that we do not fully understand, and then he claims in the 7th minute that 'no-one has immunity' from the coronavirus ¹⁹! In Malta, 80% or more of the COVID-virus 19 positive cases were mild, according to our own health department, and most people were later tagged as negative cases, or simply 'cured'. This is proof of a strong immunity, not 'no immunity'. You cannot have it both ways.

If the COVID 19 test is a good one showing a virus, then this should be a mild virus with no pandemic size issues, which goes contrary to Tedros' statement of 'no-one has immunity'. No wonder that even those patients having been tagged as positive have hardly had any symptoms, if at all.

Too many lies have come from this man, and yet the world follows his recommendations. Should we follow just whims, when he states that this situation "is a threat that we do not fully understand". Instigating a lockdown to the world on a threat that he claims he does not understand, and with his blurting of non-scientific health recommendations, such as the masks and **anti**-social distancing, which have killed more people than the virus. He should immediately resign and a good acceptable lock-down would be his voice being locked-down, and him being prosecuted and locked-up, for all the damage he has caused.

No wonder over 116 WHO member states want an independent study on the origins of the COVID 19 virus outbreak¹⁹. No wonder that the US President Trump intends to pull out of funding for the WHO. Some US politicians are asking for Tedros' resignation. Malta and the EU should do the same.

See appendix 3 (page [21](#)), for more details about the WHO's evilness.

Bill And Melinda Gates Foundation

The Bill and Melina Gates Foundation influence is of paramount importance in this letter.

Dr Rashid Buttar Reveals that Coronavirus was Patented by Bill Gates in 2006.²⁰ He has used the Pirbright Institute of the UK for filing the patent. One cannot patent a naturally occurring virus, only one that has been engineered in a laboratory. This should be a clear sign and proof that he should be arrested for bio-engineering a weapon of mass destruction.

The Bill and Melinda Gates Foundation gives larger contributions to the WHO than any national government, except the United States. The WHO clearly no longer has any independence in the field of health.

After it has exchanged scientific credibility for financing by business interests, the WHO's advice on the prevention and control of diseases can no longer be trusted.

"Gates changed the whole complexion of global health," said Don de Savigny, a professor of health systems at the Swiss Tropical and Public Health Institute, and adviser to the WHO. These investments have unquestionably had a profound impact.

Viewing the results of the horrible vaccine experiments carried out by the Bill Gates Foundation, that have paralyzed 496,000 children between 2000 and 2017 in India²¹.

This is Bill Gates' idea of 'philanthropy' on how to use his money and to ask other nations' tax-payer funds to harm other people. It cannot get any worse.

In 2014, the #GatesFoundation funded tests of experimental HPV vaccines, developed by GSK and Merck, on 23,000 young girls in remote Indian provinces. Approximately 1,200 suffered **severe** side effects, including autoimmune and fertility disorders.²²

The Gardasil vaccine, is also responsible for women's infertility. It is promoted in private hospitals in Malta, and shamelessly so. This has caused numerous deaths and other severe illnesses the world over, but its main purpose is to sterilize young girls and boys so they cannot have children of their own. In the UK, there is a good article about how some teenagers succumbed to this vaccine.²³

Having fertility disorders, means that some women cannot bear children. The ploy to promote vaccines, is not just to enrich the pharmaceutical industry, but to depopulate this world, sounds too outlandish or insane. Bill Gates, the eugenicist who, according to a video of a talk he gave, out of his own mouth, wants to massively reduce the world-population through the use of vaccines, as one of its biggest promoters. Look at what he spoke about at

a Ted talk in 2010.²⁴ In 2015, in another Ted talk, he prophetically spoke about the next pandemic outbreak. He failed to mention that the Spanish flu outbreak caused over 30 million deaths in 1918, due to vaccines²⁵. Vaccines killed more than bullets and cannon shots during world war I. Gates, the mass-media and some health authorities point out the 'Spanish flu' pandemic, but never connect it to the heavy vaccination programme after the war.

Gates also intends to place microscopic ID chips in the vaccine to track your every movement. The Orwellian dream about 'Big Brother' total population world control in his book 1984 seems closer by the day, unless we put a stop to it now.

All efforts by Gates to avoid any safe-guards of his promoted vaccines, has led US President Trump to tweet:

March 2017@RealDonaldTrump confronted Bill Gates on the safety of vaccines when he was considering a safety commission headed by @RobertKennedyJr to look into the ill effects of vaccines.

Gates said, "No, that's a dead end. That would be a bad thing. Don't do that." This is how Gates operates, and is never transparent.

Bill Gates mentioned in a TED talk that they had the vaccine ready "with Ebola, we got it done **before** it was needed"! Here in his own words at the 32nd min in this footnote video²⁶. The 'Ebola' scare had both the 'problem' outbreak using the media, and the so-called 'solution' by the vaccine. Sounds familiar now with the 'COVID-19' outbreak?

Bill Gates, the unelected world health *non*-doctor, is proposing a world solution to this so-called COVID 19 plannedemic by vaccinating the whole world²⁷ and making trillions from it. Who is he to decide everything on health matters in this world, and why should the world bow down to what he says? He has absolutely no medical training.

The Rockefeller Foundation

The Rockefellers paid for the headquarters of the League of Nations in Geneva and they gave land for the United Nations building in New York. The location had previously been used for a slaughterhouse, and they built the UN building there by 1950.

Land covered in blood, fear, and pain, for the foundations of the organisation designed to do the same to human-beings. The UN is a Trojan Horse for world government, and it sits atop a vast network of organisations which present themselves as serving the people, when in

fact they are fronts for the most grotesque manipulation²⁸. The UN is certainly not a democratic institution, as one may wrongly imagine. It had lots of communists running it. Even the UN flag was based upon the ex-Soviet flag²⁹.

The genealogy of Bill Gates to the snake-oil salesmen Rockefellers is telling. The extreme amount of influence that his money and other so-called philanthropic trusts that collude together is impressive³⁰. Why would someone at the helm of Microsoft delve into a world vaccinating programme, unless he was ultimately designated for this task by his 'extended' family? No citizen voted for him to control the strings as to how the WHO and other institutions work on this COVID 19 pandemic.

Control of FaceBook social media is run by CEO Mark Zuckerberg (real name is Jacob Greenberg) and grandson of David Rockefeller. Any article not to the liking of this Rockefeller family is censored on FaceBook, usually with excuses of "policy guidelines".

As the main mass media is owned by their cabalistic friends³¹ (13 bloodlines of the Illuminati), their grip of humankind is on almost everyone, everywhere. They even had an agenda to use food as a means to control humans³². So it should not be hard now to see what these people are doing, with this COVID 19 plandemic scaremongering.

The Unholy Trinity on this COVID 19 issue, are the CDC, the WHO, the Bill Gates Foundation and orchestrated by the Rockefellers and friends. That is a conspiracy fact that no journalists can debunk. They usually get paid-trolls to smear anything like this shown to the public.

How Other Scientists And Doctors View This COVID-19 Scenario.

Dr Yoram Lass, an Israeli physician, politician and former Director General of the Health Ministry, stated that, "In every country, more people die from regular flu compared with those who die from the coronavirus."

So why did not the mainstream-media or the WHO point out that the regular flu kills much more than the Coronavirus -19 (84?). So is there a hidden agenda behind it?

Here is a highly respected German medical research scientist³³ Prof. Dr. med Sucharit Bhakdi, who is very technical and explains many things in detail. There are English subtitles to follow. This is certainly not what the mass media tells you.

I would encourage you to do your own research, rather than blindly swallow the funnelled information coming from the WHO and the mass media. You need to know the truth.

Sara Cunial, an Italian politician, had the courage to speak the truth about the whole matter, and to the Parliamentary Chamber for all to hear³⁴. She said that the “DOGMATIC SCIENTISM IS THE REAL CULTURAL EPIDEMIC OF THIS COUNTRY”.

Tony Benn And The Five Essential Questions Of Democracy³⁵

Tony Benn, a British parliamentarian, stood by this belief that those in positions of economic, social and political power should always be asked five questions:

“What power have you got?”

“Where did you get it from?”

“In whose interests do you use it?”

“To whom are you accountable?”

“How do we get rid of you?”

Benn asked these questions everywhere he went. “Anyone who cannot answer the last of those questions does not live in a democratic system,” Benn explained.

Are we asking about the power and interests of the CDC, the WHO and Bill Gates, and how we can get rid of them?

Take a look at what this news article says on The Times of Malta³⁶ about finding a cure for this COVID 19 plandemic.

The EU has made this vaccine research its top priority, which is what Bill Gates wanted all along. The Times did not allow any comments on their page, as is the norm, so that nobody can voice their concerns. One finds two videos in this page, one showing a video about the EU commitment to funding a ‘cure’ for this virus, and the other one from Bill Gates being allowed to be the only showman in town, about his solution to this so-called crisis. should refuse to pay for this expense and refuse to allow these vaccines to enter into our bodies.

Gates told us that the vaccine should be ready by January 2021 and is the fastest vaccine development in history. He certainly would not take it himself or his own children. Most health authorities would not do any analysis of any ingredients put into the vaccines, because they are all too compromised to go against the world norm. There is even aborted human foetus tissue in the vaccine.

With the WHO, CDC and Bill Gates totally corrupt and as one with their depopulation agenda, one wonders why the world still is in the grips of these mad-men? Rather than seeking their advice, the world needs to shut them out completely and permanently. The test is a completely false one, and some even have the virus placed in the test itself, to show the virus. I have zero faith with these institutions, and so would anyone else with such knowledge and more than two brain-cells to rub together.

We should, as Maltese, rally as we did against the Nazis and Fascists during World War II and counter-guard ourselves with this new world war III fired into us by vaccines rather than bullets.

We must fully safeguard our health, which members of parliament and health authorities should do. We should view authorities as either the problem or the solution. The authorities are manufacturing fake crises to eliminate our freedom of expression and movement, as all sapient freemen are born free.

God gave us our free sovereignty to be autonomous citizens against lies of all sorts, including authorities that seek nothing but harm upon us. May God be with us all.

Best wishes,

Christopher Grech

Appendix 1 - Dr. Kaufman's Findings

In an interview with Brian Rose³⁷, using his censor-free platform called London Real TV, we find a very candid description of the real science behind this pandemic. Most of Kaufman's youtube videos get taken down so the truth would be hidden from the public.

This is the way how the test is made: - "A sample is taken from the lungs via the nose or mouth, via a micro-tube. They inject some liquid into the lungs, squish it around and pull it out, in order to test it. This would be an impure liquid with all sorts of things, like bacteria, fungi, sputum and other free genetic material as well. Exosomes are also extracted, as it is found within most human cells and they would add an enzyme that would digest any cell membrane, so as to allow the DNA and RNA to be free in a solution for laboratory use, so that they could do further analysis.

Then they have identified a sequence of RNA, that they allege is from a corona virus family. Since the sample is not purified it would be impossible to know the source of origin causing this disease.

We are having our rights taken from us, not right to leave, homes, the right to assemble, the right to travel, asked to keep distance from each other, asked to cover our face and people are afraid of each other.

Policies in the financial sector were all the businesses are instructed to clear their business supply chain for food business shut down and farmers asked to destroy meat and crops. The Federal government is printing money like it is going out of style. Corporations are being bought out".

He mentioned the UN Agenda 21, now known as Agenda 2030, using technology to spy on people, contact tracing and tracking devices on our cell phones. Recently in Malta, PWC Malta, is giving this device for free.

Kaufman goes on to use the CDC own data for total mortality, and that there are some 6% less deaths was reported comparing 2020 for the same weeks from 2017 to 2019. A third of deaths in the US is via medication/hospital errors, which is why having less medical care deaths are overall reduced. When doctors went on strike, there was a reduction of mortality! John Hopkins University stated that a quarter of a million deaths were due to medical errors.

The Chairman of the Federal Commission of telecommunications, is not planning to conduct any health studies on 5G. Even with 3 or 4G, there have been studies that have shown brain

tumors, called acoustic aroma, associated all with phone use. There are reports from people getting sick from smart-meters which causes headaches, nose bleeds, ringing in the ears.

Installing 5G now at a lighting pace during this pandemic scare emitting at 60Ghz, influences the bone marrow which is responsible for the production of white and red blood cells. Radiation disrupted the mitochondria to take up oxygen within the cells, integral to our cellular structure and they are the energy factories of the cells. The mitochondria is the only part in the cell that uses oxygen to undergo an oxidative process called phosphorylation which yields a lot of energy.

The white blood cells are the carriers of the immune system and so 5G disrupts this process of oxygen getting to the blood cells, that would suppress the immune system. Brian Rose of London Real TV mentioned that there is a link between a lower immune system and 5G.

Germes and viruses causes diseases but when you look at logical reasoning whoever proposes a theory, they are the ones with the burden of proof to show that that theory is correct. If unable to prove it, then it is erroneous.

All PHD thesis on viruses have the postulate on germ theory. Students are thought the protocols about isolating and identifying a non virus and you never question that underlying premise that virus causes disease.

All grants for virus research is based on the germ theory model! There is no room to come up with different ideas. Dr. Andrew Kaufman reads studies and not vested in any preconceived models. He can look at it as an outsider.

The German High Court established that the measles virus does not exist! Nobody could prove it at all. John Benner, the first person who invented the main idea behind the vaccine. He took cow's pus and put it on his son and he got crippled. This is how the origin of vaccine came about. The **Latin** word for 'cow' is 'vaccinae,' which was then used for later vaccines of all types.

Some diseases went down when there was no vaccine for that particular disease. So the statement that vaccines reduce illnesses and death is false. If the virus cannot be proven then its vaccine cannot even work!

The actual test:-

Take the fluid of the lungs from a sick person

Instead of purifying a virus out of that, mix it up with a foreign cell which may be derived from the kidneys of monkeys

Add then antibiotics to the cells as well.

Studies show that antibiotics can actually induce exosomes, because it is generally toxic to the cells. So the above 3 mixes are going to produce exosomes grow these cells for a few days up to one to two weeks and then look at it under a microscope and they see like

particles and say that is a virus. There is no way how analysts seeing the culture under the microscope which is the virus and which are the exosomes.

The conclusion what we see in the pictures are the exosomes, because they created the recipe for the exosomes. The test is testing for a genetic sequence not a virus. We do not know where the genetic sequence comes from. There is no 'gold standard' that they have isolated a viral particle.

Appendix 2 - CDC Whistle-Blowers

We have shocking news about the hiding of the truth of certain diseases which the CDC are morally bound to investigate. Here are what whistle-blowers have been revealing: -

Example #1: CDC Whistleblower Announces That the MMR Vaccine Causes Autism³⁸

Dr. Thompson told Dr. Hooker that, in 2003, research carried out on African-American boys under the age of 36 months were given the MMR vaccine by the CDC in Atlanta, Georgia. The rate of autism in this group rose by 340 percent. The CDC tried to reduce the numbers by not giving these boys a Georgia birth certificate, reducing the numbers of cases.

The cases of autism have exponentially increased by allowing more “mandatory vaccination” programmes in the USA. When comparing certain vaccination programmes and autism there is a startling connection to them, but all this is either denied or pushed under the table, to the dismay of those families affected. The source of the below table is that from the CDC itself.

Example #2: Fact – Thimerosal in Vaccinations Can Cause Children to Develop Tics

Any toxicologist worth his salt knows that mercury is a known toxin. It is found in the basic compound in thimerosal in vaccines. Vaccines containing mercury, as well as amalgam teeth fillings is prohibited in Sweden since 1st June 2009 due to their law on mercury use.

The CDC should have prohibited the use of mercury in any form on the human body, but it has allowed this criminal behaviour to continue and it is found in most vaccines.

Example # 3: CDC Found to be Responsible for the Death of Thousands of Unborn Children

³⁸ <https://vactruth.com/2014/09/10/cdc-corrupt-and-dangerous/>

Vaccinations being given to pregnant women, in 2012, Eileen Danneman from the National Coalition of Organized Women (NCOW) accused the CDC of “wilful misconduct,” stating that she believed the CDC was responsible for causing the deaths of thousands of unborn babies. The CDC had deliberately misled the nation’s obstetricians and gynaecologists and colluded with the American Journal of Obstetrics and Gynaecology (AJOG) to mislead the public by advertising the flu vaccine as a safe vaccine for pregnant women when members of the CDC knew fully well that the vaccine was causing a massive spike in fetal deaths.

Documentation received from Ms. Dannemann revealed that that between 2009 and 2010, mercury-laden combined flu vaccinations increased Vaccine Adverse Events Reporting Systems (VAERS) fetal death reports by 4,250 percent in pregnant women.

Independently from any other source, if a researcher finds the US VAERS database, one can see over 750,000 cases of vaccine related deaths and illnesses, from 1990 to 2019. Does the CDC and the mass media report on these findings to the public?

Example #4: The CDC Admitted That Polio Vaccinations Cause Polio but Promote Them Anyway

In 2012, the CDC wrote a press release titled Update on Vaccine-Derived Polioviruses — Worldwide. They wrote:

“In 1988, the World Health Assembly resolved to eradicate poliomyelitis worldwide. Nonetheless, rare cases of vaccine-associated paralytic poliomyelitis can occur both among immunologically normal OPV recipients and their contacts and among persons who are immunodeficient.”

The CDC finds no shame in quoting:- “VDPVs can cause paralytic polio in humans and have the potential for sustained circulation. VDPVs resemble WPVs biologically and differ from most vaccine-related poliovirus (VRPV) isolates by having genetic properties consistent with prolonged replication or transmission. VDPVs were first identified by sequence analyses of poliovirus isolates.”

My note, as they did not eradicate polio, they have just changed the name to vaccine-derived polioviruses (VDPVs) and causes polio outbreaks which are much worse than the wild polio (WPV). Bill Gates has publicly claimed that polio has been eradicated from the world due to vaccines.

Example # 5: CDC Caught Changing the Risk Criteria for Ebola Transmission

CDC secretly changes its data on the risks of ebola entering the US on their website. Could this be in preparation for an onslaught of new vaccinations that are heading our way? Look at the ebola new cases for up to 2014:-

Case Incidence in Guinea, Liberia, and Sierra Leone.

Date	Number of Cases per Month
3/31/2014	120
4/30/2014	114
5/28/2014	75
6/24/2014	290
7/31/2014	723
8/28/2014	1730
9/26/2014	3501
10/31/2014	6987
11/28/2014	3559
12/31/2014	3272

On August 29, 2014, the CDC announced: “On August 28, 2014, NIH announced that initial human testing of an investigational vaccine to prevent Ebola virus disease will begin next week by the National Institute of Allergy and Infectious Diseases (NIAID), part of the National Institutes of Health”.

So if there were only 3052 ebola cases before end August 2014, why would the CDC bother to create a new vaccine, if the disease is mainly localized in Western Africa? Is it simply to create panic, then promote the vaccine and then cashing in, starting perhaps promoting it to the US? They only ‘confirmed’ 4 US citizen cases and 3 of which were outside the US, and only one person within the US. They could not lie too much about these numbers for ebola, even though tested via an unscientific kit.

The CDC cannot be trusted when it comes to giving advice about vaccinations. It continually lies, withholds evidence and fixes data to obtain the results that they want to achieve. Total collusion with the pharmaceutical industry is why this organization is so corrupt. It safeguards just the vaccine and other health related industries and it does not protect people at all. Due to their continual dishonesty, many children have suffered lifelong disabilities as a result.

Appendix 3 - WHO Wrong-doings - Some Details

Wrong-doings by the previous WHO Director General Margaret Chan Fung Fu-chun

Jane Burgermeister, an Austrian investigative journalist, filed charges with the FBI in Austria on June 10, 2009 against the WHO, the UN, and several of the highest ranking members of the U.S. Federal government, including President Obama for bioterrorism and attempts to commit mass murder.

The court case was just in time for the anticipated release of Baxter's A/H1N1 flu vaccine. By bioengineering and releasing lethal biological agents -- the 'bird flu' virus and the 'swine flu virus' -- as a pretext for implementing a forced mass vaccination program, the syndicate would be able to administer a toxic biological agent that causes death and injury to the people of the U.S. in direct violation of the Biological Weapons Anti-terrorism Act³⁹.

The Model State Emergency Health Powers Act, the National Emergency Act, National Security Presidential Directive 51, Homeland Security Presidential Directive 20 and the International Partnership on Avian and Pandemic Influenza were designed in part to require vaccinations in the event of 'National Emergencies' or 'pandemics.'

Burgermeister charges that those named in her allegations (mentioned above) implemented and/or accelerated implementation of 'laws' and regulations -- in the U.S. since 2008 -- aimed at stripping citizens of the U.S. of lawful Constitutional rights to refuse an injection.

Besides abiding by the pharmaceutical companies to promote or tacitly allow to pop needles of vaccine fluids into the world population as Burgermeister has shown, she has allowed the telecommunications companies to allow their version of safety standards instead of hundreds of scientists showing otherwise.

Some idea on how some WHO funds were spent. US\$ 201 million were spent on travel expenses⁴⁰ for 2016 alone. The mishandling of funds, amounting to 10% of the annual budget of US\$2 billion a year, was spent on hotels and flights rather than to care for AIDS patients. In contrast, 'Doctors Without Borders', having 37,000 aid workers versus WHO's 7,000 staffers, spends about \$43 million on travel a year. This works out by the WHO to US\$ 29,000 per worker versus US\$ 1200 per 'Doctors without borders' worker. Travelling first class and lodging in 5 star hotels should not be the main work of WHO workers.

Time to reassess how the WHO works and for which real purpose it is truly designed.
